I received a call from Mr. Brandenburg of the GSA carpenter shop in Suitland. TUES-20 JUNE He had received a request for an estimate from STAT the O/L of Engineer and he needed some advice about the fence he was to calculate. Was it to be painted and could he use wooden supports. Also he was going to make it 10 ft high even though the shelves where higher in places - I said I'd call him back.

STAT I contacted in O/L Space Branch STAT and also and STAT STAT I advised them of this situation. Mr. STAT called and had the estimate stopped. I suggested that STAT go out and talk with GSA.

Fri June 23

STAT went out to the Vault at Suitland and informed GSA to make an estimate for a chain-link fence.

STAT

When I got word of this on Mon. 26 June I called and reminded him of the O/Sec. memo for an Expanded Metal fence. I also STAT called SIGNATURE Corrective action was taken
